RE: Final RI/FS Project Plans and Health & Safety Plan  
for Operable Unit 8, (Site 16); Operable Unit 11,  
(Sites 7 and 80) and : Operable Unit 12, (Site 3)

Dear Ms. Landman:

The referenced documents have been received and reviewed by the North Carolina Superfund Section. We find that these documents are acceptable and have no further comments. Until the detection limit issue is completely resolved, continue with the existing analytical format. Note however that there may be a need to perform additional sampling and analyses for these Operable Units if the results of the RI are inconclusive that State standards are met. Please call me at (919) 733-2801 if you have any questions about this.

Sincerely,

*Patrick Watters*
